When you visit our Services, we may send one or more Cookies – small data files – to your computer to uniquely identify your browser and let us help you log in faster and enhance your navigation through the Sites. “Cookies” are small text files that websites and other online services use to store information about users on the users own computers. A Cookie may convey anonymous information about how you browse

the Services to us so we can provide you with a more personalized experience but does not collect personal information about you. Cookies allow the Sites to remember important information that will make your use of the site more convenient. For example, cookies can be used to store your sign-in credentials so that you do not have to enter them each time you return to a website. Cookies also may be used to store a unique identification number tied to your computer so that a website can recognize you as the same user across different visits to the website. A Cookie will typically contain the name of the domain from which the Cookie has come, the “lifetime” of the Cookie, and a randomly generated unique number or other value. Certain Cookies may be used on the Sites regardless of whether you are logged in to your account or not.

3. Persistent Cookies remain in the Cookie file of your browser for much longer (though how long will depend on the lifetime of the specific Cookie).

4. We may use session Cookies to track the total number of visitors to our Website, this is done on an anonymous aggregate basis (as Cookies do not in themselves carry any personal data).

5. We may also employ Cookies so that we remember your computer when it is used to return to the Website to help customize your Beere App web experience. We may associate personal information with a Cookie file in those instances.

6. We may use Cookies to help us know that you are logged on, provide you with features based on your preferences, understand when you are interacting with our Services, and compile other information regarding use of our Services.

7. Third parties with whom we partner to provide certain features on our Website or to display advertising based upon your Web browsing activity may use Cookies to collect and store information about your browsing activities, in order to provide you with more relevant content and ads, on and off the Services.

8. Our Website may use remarketing services, to serve ads on our behalf across the internet on third party websites to previous visitors to our Sites. It could mean that we advertise to previous visitors who haven't completed a task on our site. This could be in the form of an advertisement on the Google search results page or a site in the Google Display Network. Third-party vendors, including Google, use Cookies to serve ads based on your past visits to our Website. Any data collected will be used in accordance with our own privacy policy, as well as Google's privacy policies. To learn more, or to opt-out of receiving advertisements tailored to your interests by our third parties, visit the Network Advertising Initiative at www.networkadvertising.org/choices.

These services typically collect the information sent by your browser as part of a web page request, including Cookies and your IP address. They receive this information and their use of it is governed by their respective privacy policies. You may opt-out of Google Analytics for Display Advertisers including AdWords and opt-out of customized Google Display Network ads by visiting the Google Ads Preferences Manager here <https://adssettings.google.com/authenticated?hl=en>. To provide website visitors more choice on how their data is collected by Google Analytics, Google has developed an Opt-out Browser add-on, which

is available by visiting [Google Analytics Opt-out Browser Add-on](https://tools.google.com/dlpage/gaoptout) here <https://tools.google.com/dlpage/gaoptout>.
